Absolute gravity measurements in South America

Denizar Blitzkow

Ana Cristina Oliveira Cancoro de Matos

Carlos Alberto Corrêa e Castro Jr.

**SIRGAS SIMPOSIUM
16 - 18 NOVEMBER, 2016.
QUITO - EQUADOR**

SUMMARY

- **Absolute Gravimeter A-10**
- **Absolute Gravity Network in São Paulo**
- **Absolute Gravity Network in Brazil**
- **Absolute Gravity Network in Argentina**
- **Absolute Gravity Network in Venezuela**
- **Future possibilities**
 - **In Brazil: Minas Gerais, Mato Grosso, Paraná**
 - **In S A: Ecuador, Colombia, Uruguay, Paraguay**
 - **In C A: Costa Rica**
- **Gravity densifications in South America**

COLLABORATORS

The activities related to the **absolute gravity measurements** were possible due to different people and organizations.

- ❖ IBGE: S.A. Costa, M. Nunes, C.A.C. Castro Jr , C.A.M. Almeida
- ❖ EPUSP: E.S. Fonseca Jr, F.G.V. Almeida, J.P. Cintra, G.N. Guimarães
- ❖ IGN e UNR: E. Lauria, D.D. Denett, J.A. Tulián, M.C. Pacino
- ❖ IGVSb: N. Cano, N.O. Guevara;

Due to the big efforts undertaken by different organizations in the last few years to improve the absolute gravity network coverage there are available...

68 Absolute gravity points in South America

The next activities will be undertaken in other countries with support of civil and military institutions.

Absolute Gravimeter A-10

A contribution of IGC
(Instituto Geográfico e Cartográfico)
State of São Paulo

ESCOLA
POLITÉCNICA
DA USP

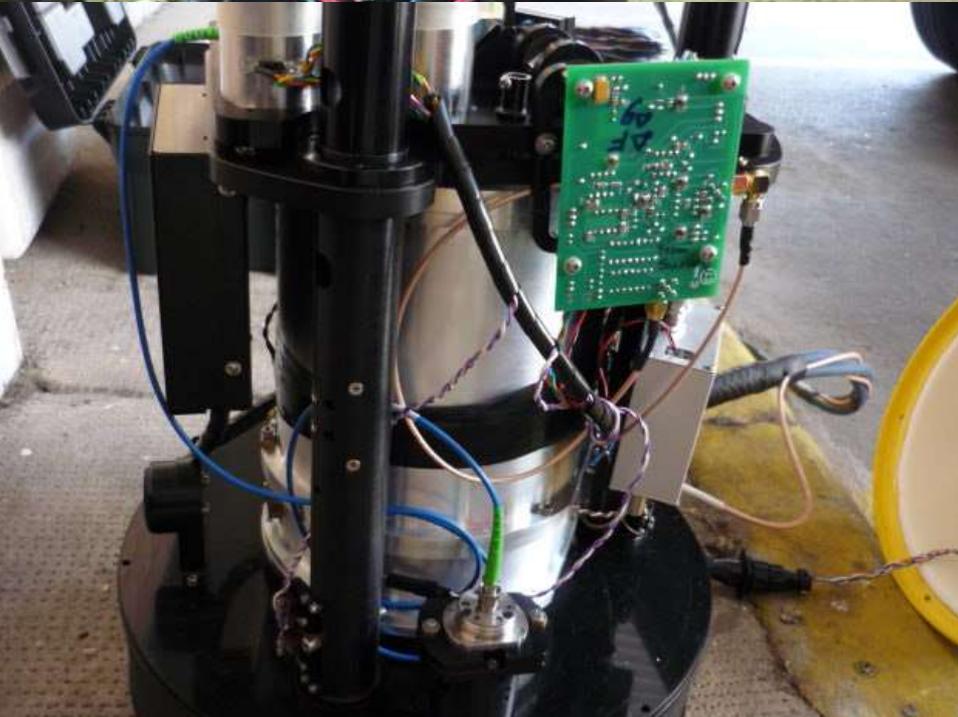

IBGE
Instituto Brasileiro de Geografia e Estatística

Absolute gravimeter Micro-g LaCoste A-10/32

Pilar in the Astronomical Observatory Valinhos – São Paulo

Absolute gravity – Interior of the laser system

Absolute gravity – Interior of the dropper system

Detail of the air pump

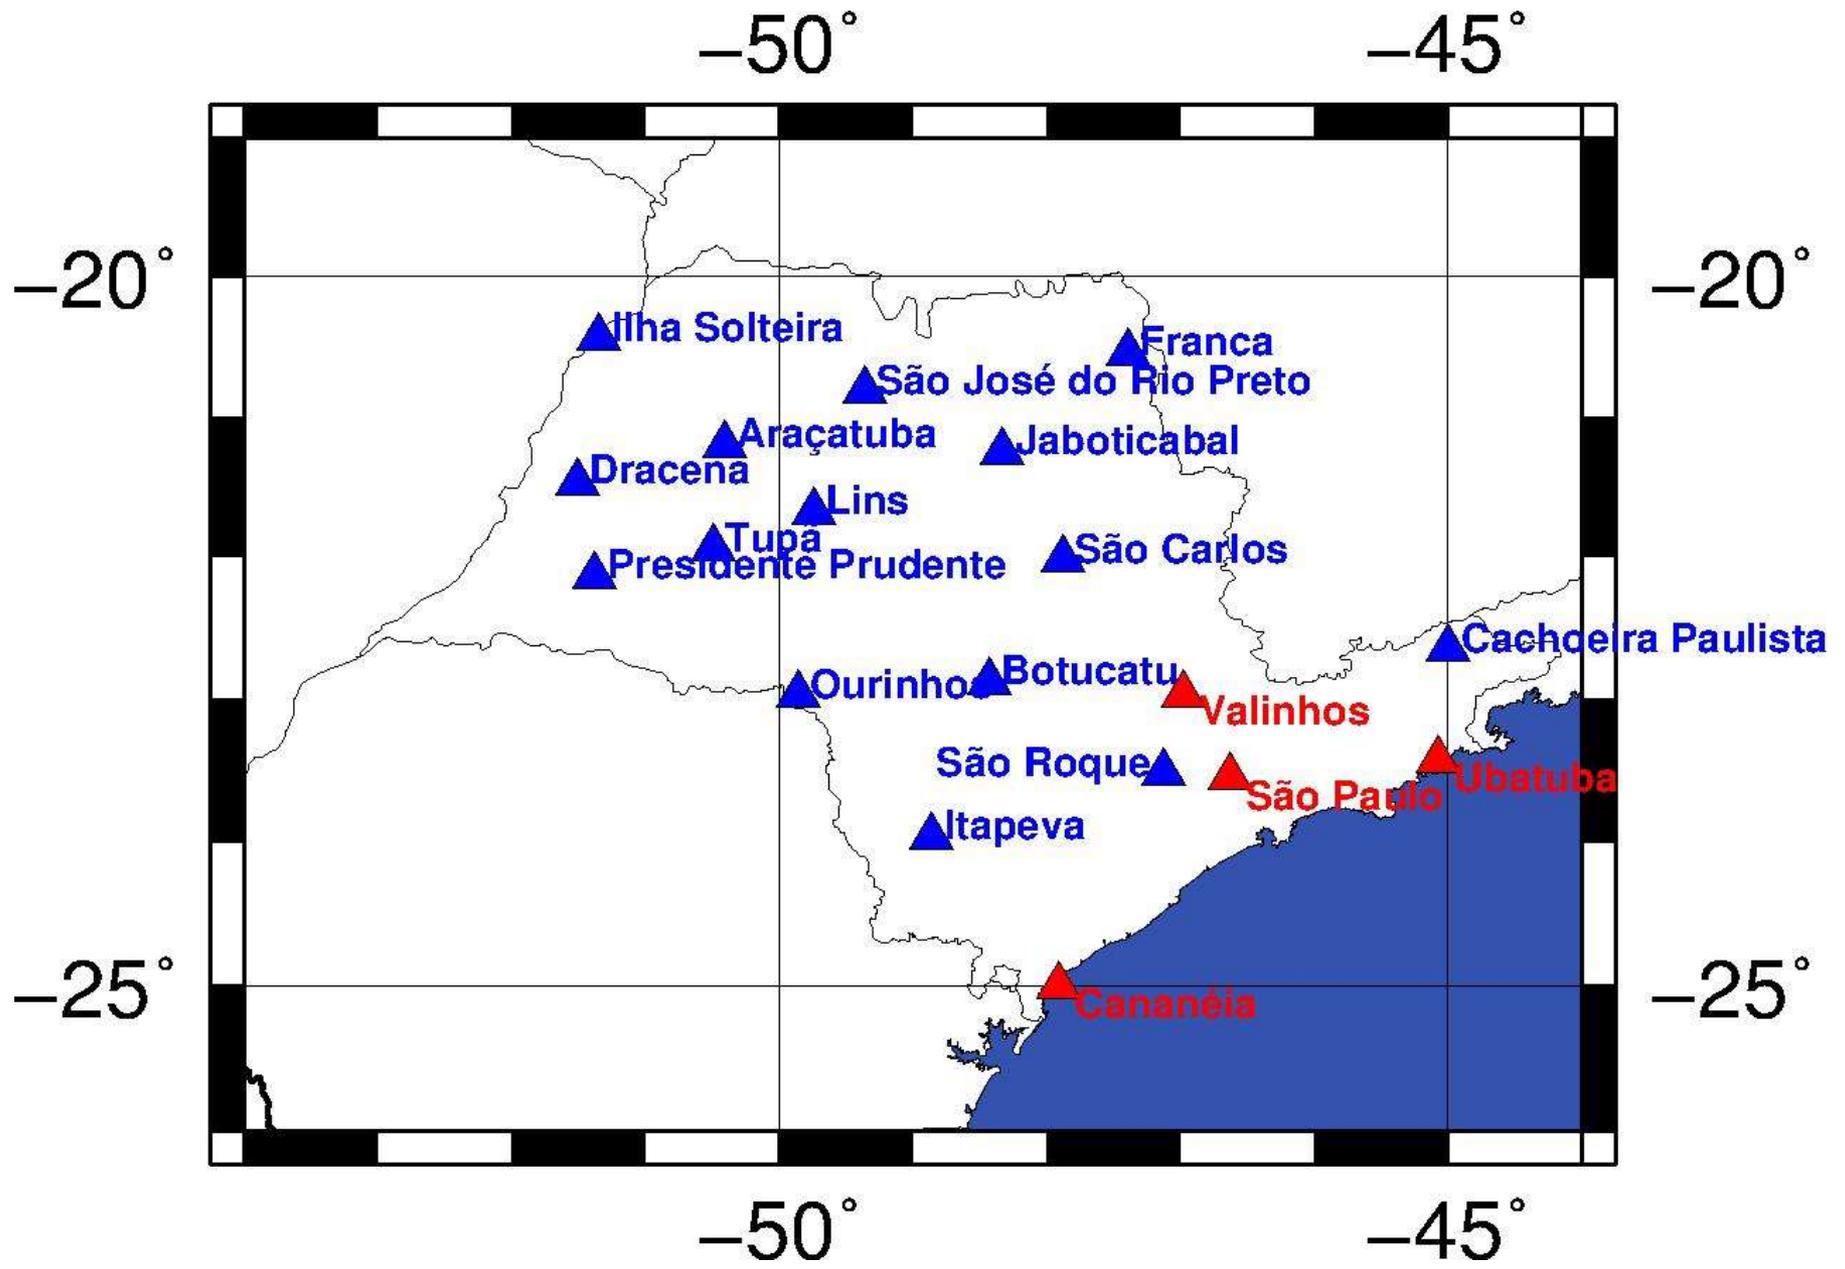

Absolute gravity – Vehicle used

ABSOLUTE GRAVITY MEASUREMENTS

Absolute Gravity Network in São Paulo – 19 points

Absolute Gravity Network in Brazil – 12 points

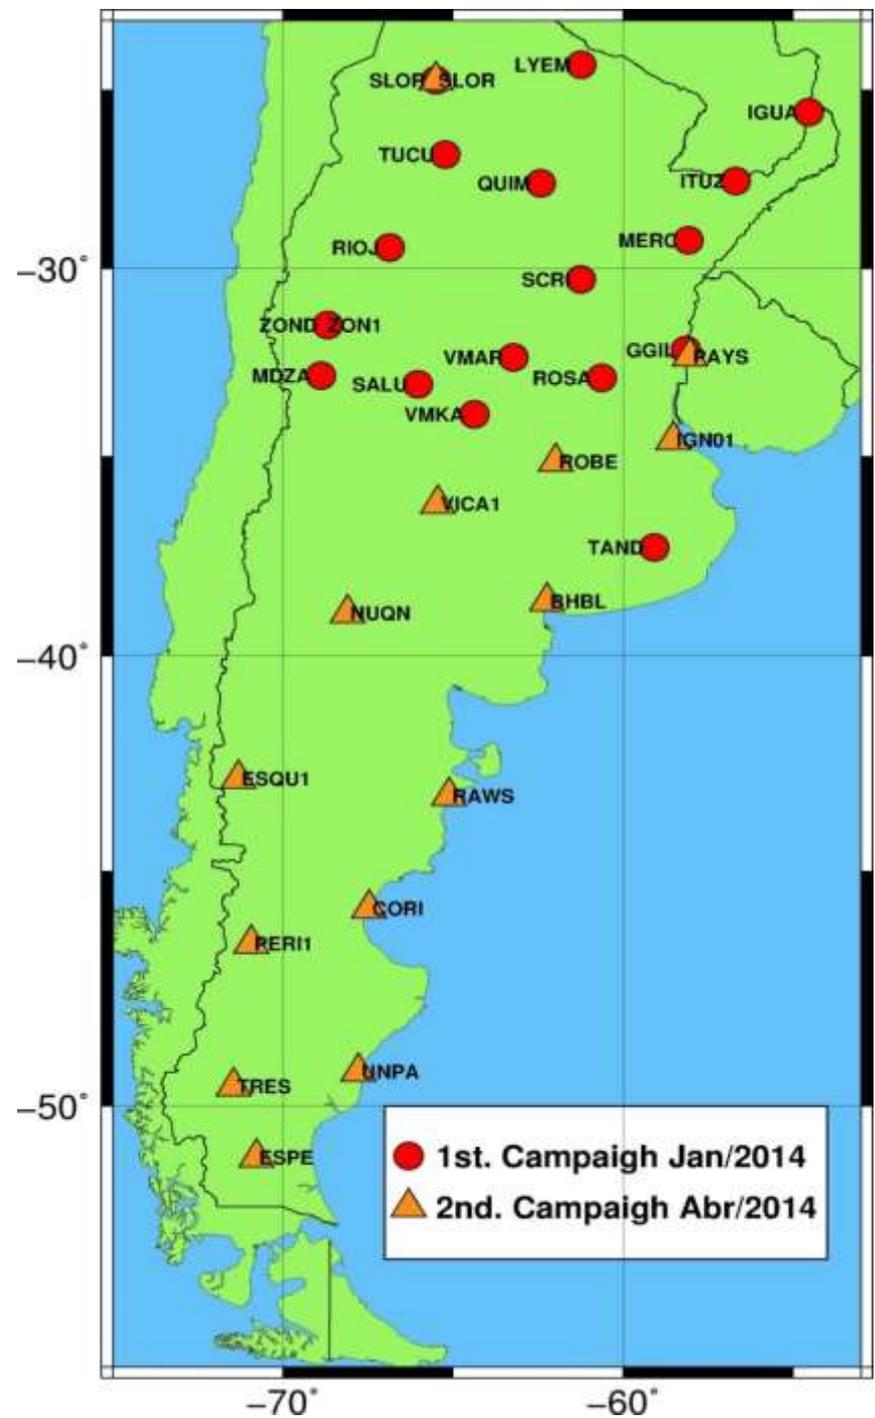

Absolute Gravity Network in Argentina

IGN
(Instituto Geográfico
Nacional)

2 campaigns:

North (17 points)

South (15 points)

Absolute Gravity Network in Argentina

IGN
(Instituto Geográfico Nacional)

3rd campaign:

16 points
(9 reobservations)

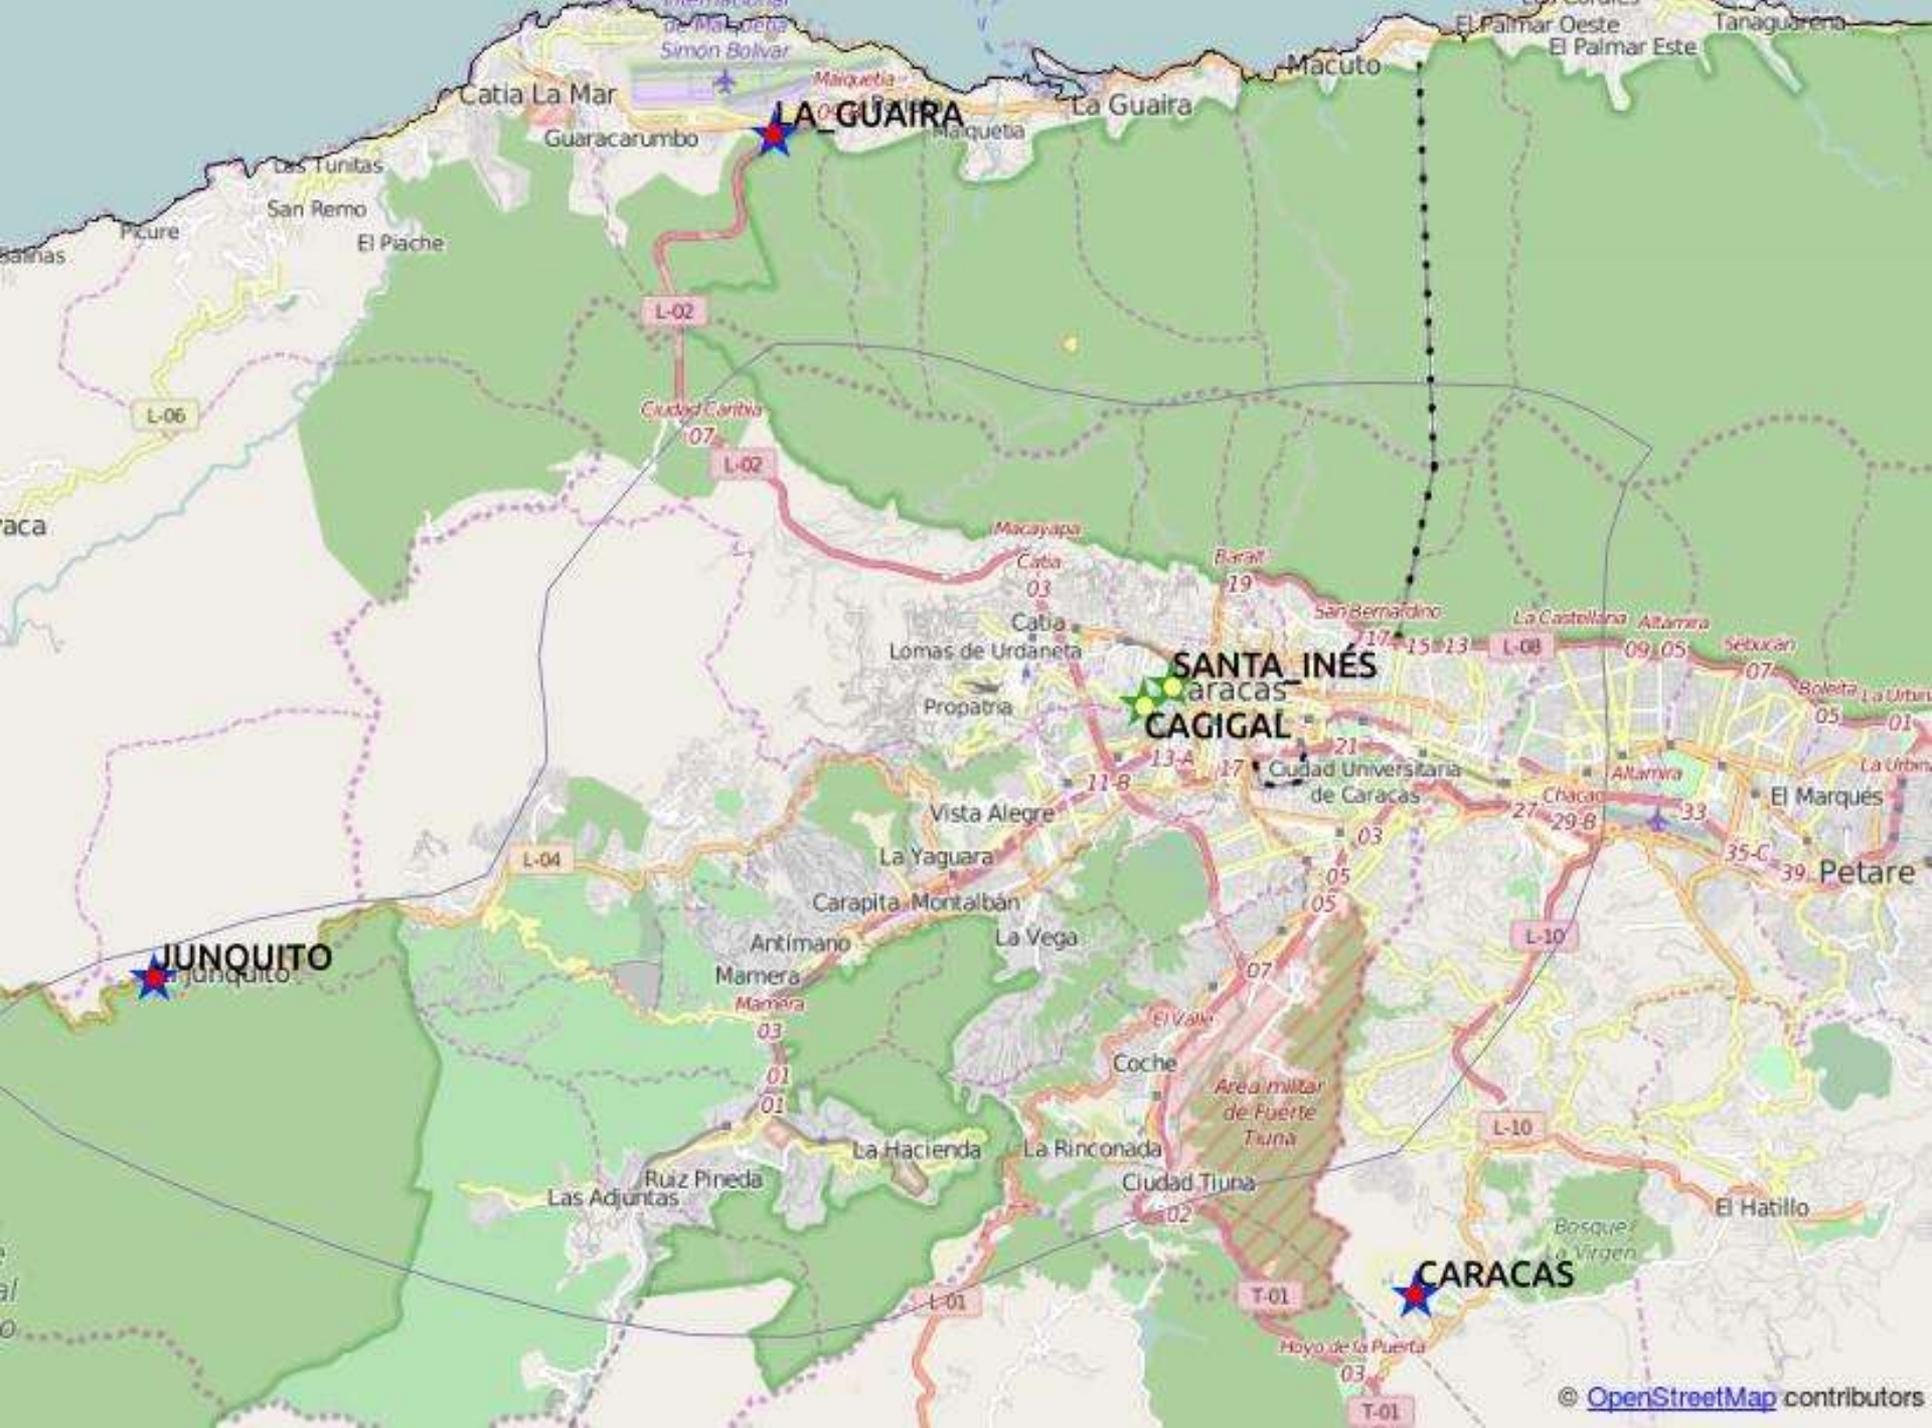

IGN (Instituto Geográfico Nacional) Vehicles and field work team

Absolute Gravity Network in Venezuela – 13 points

IGVSB (Instituto Geográfico Venezuelano Simon Bolivar)

Vehicles and field work team

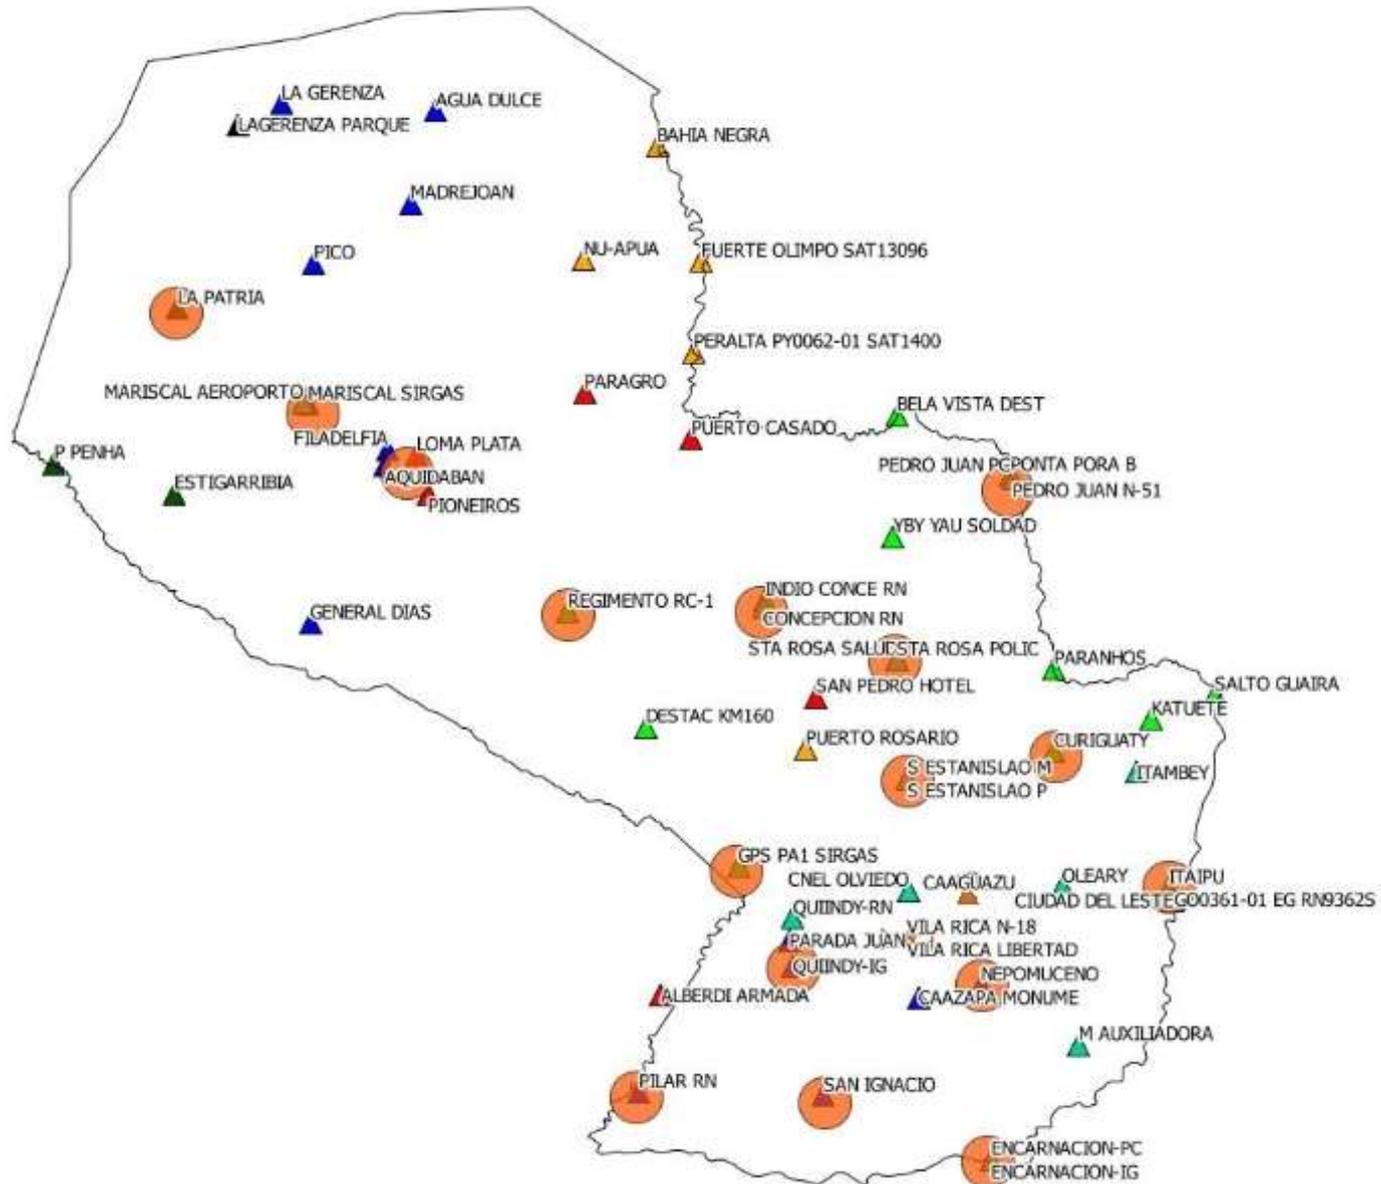

FUTURE ABSOLUTE GRAVITY MEASUREMENTS

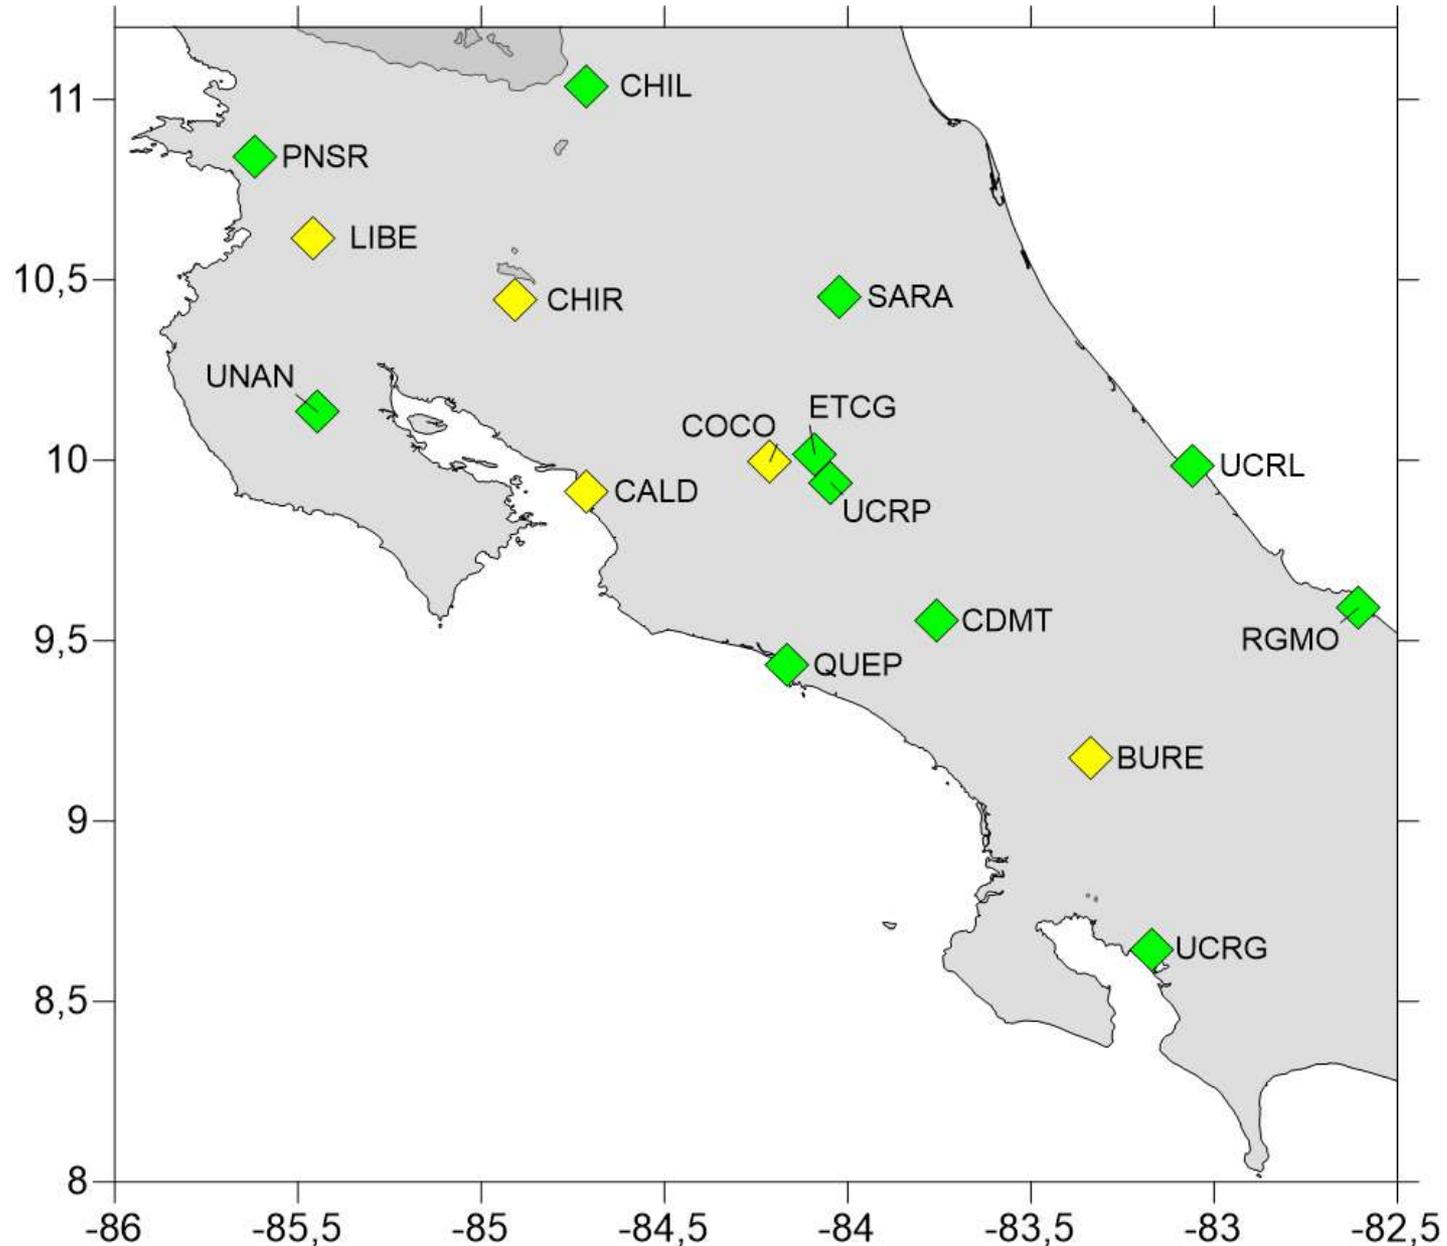

Absolute Gravity Network in Ecuador - Predicted

Absolute Gravity Network in Paraguay - Predicted

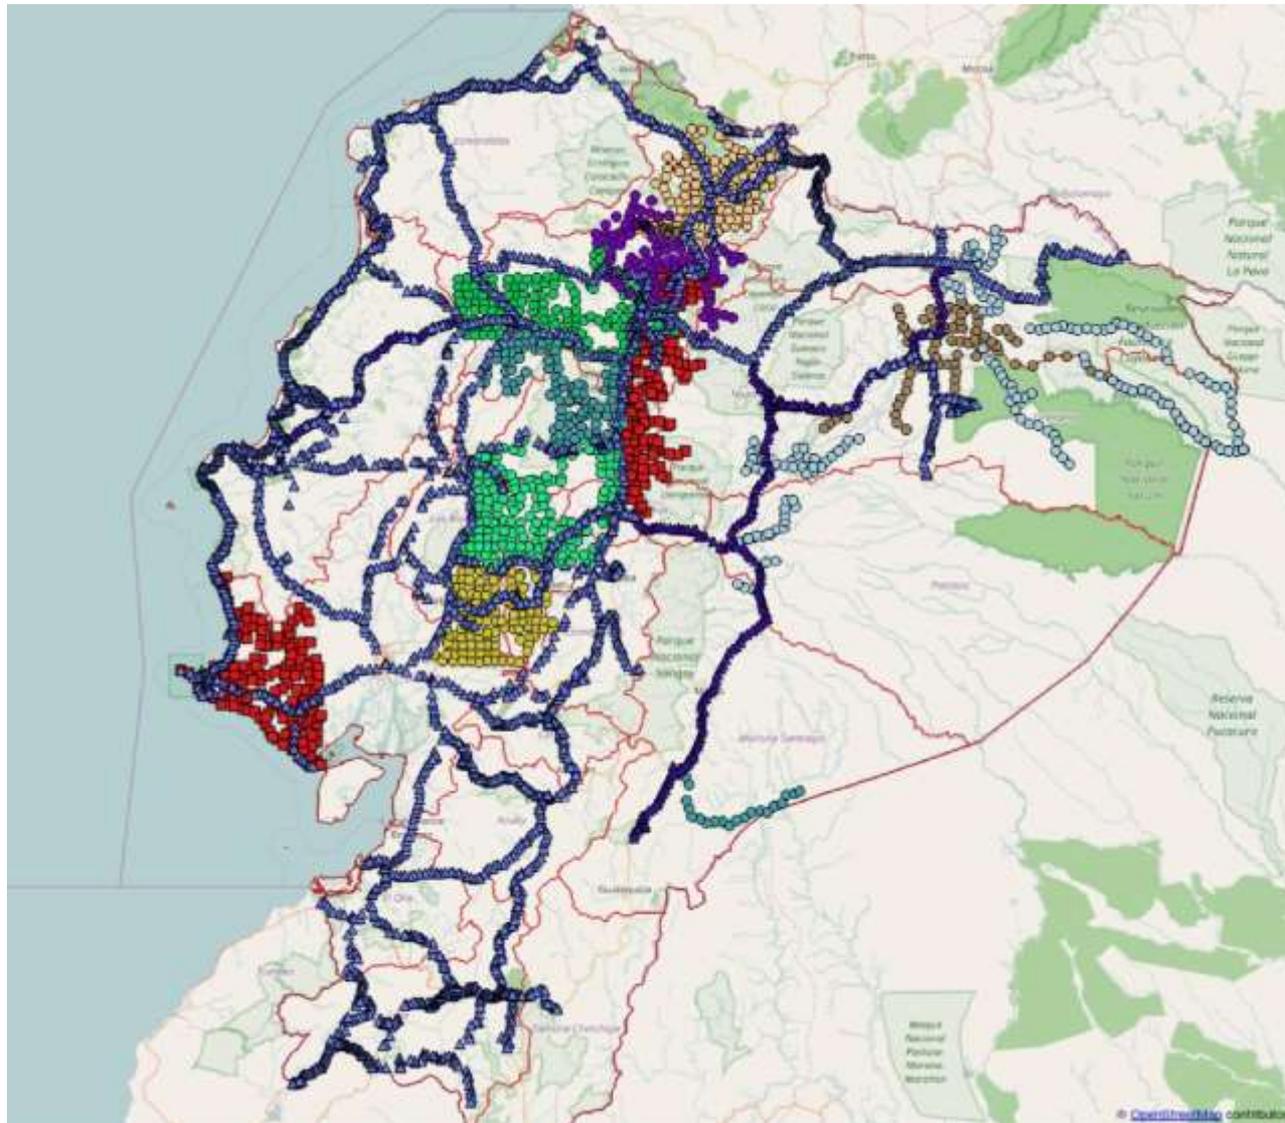

Absolute Gravity Network in Costa Rica - Predicted

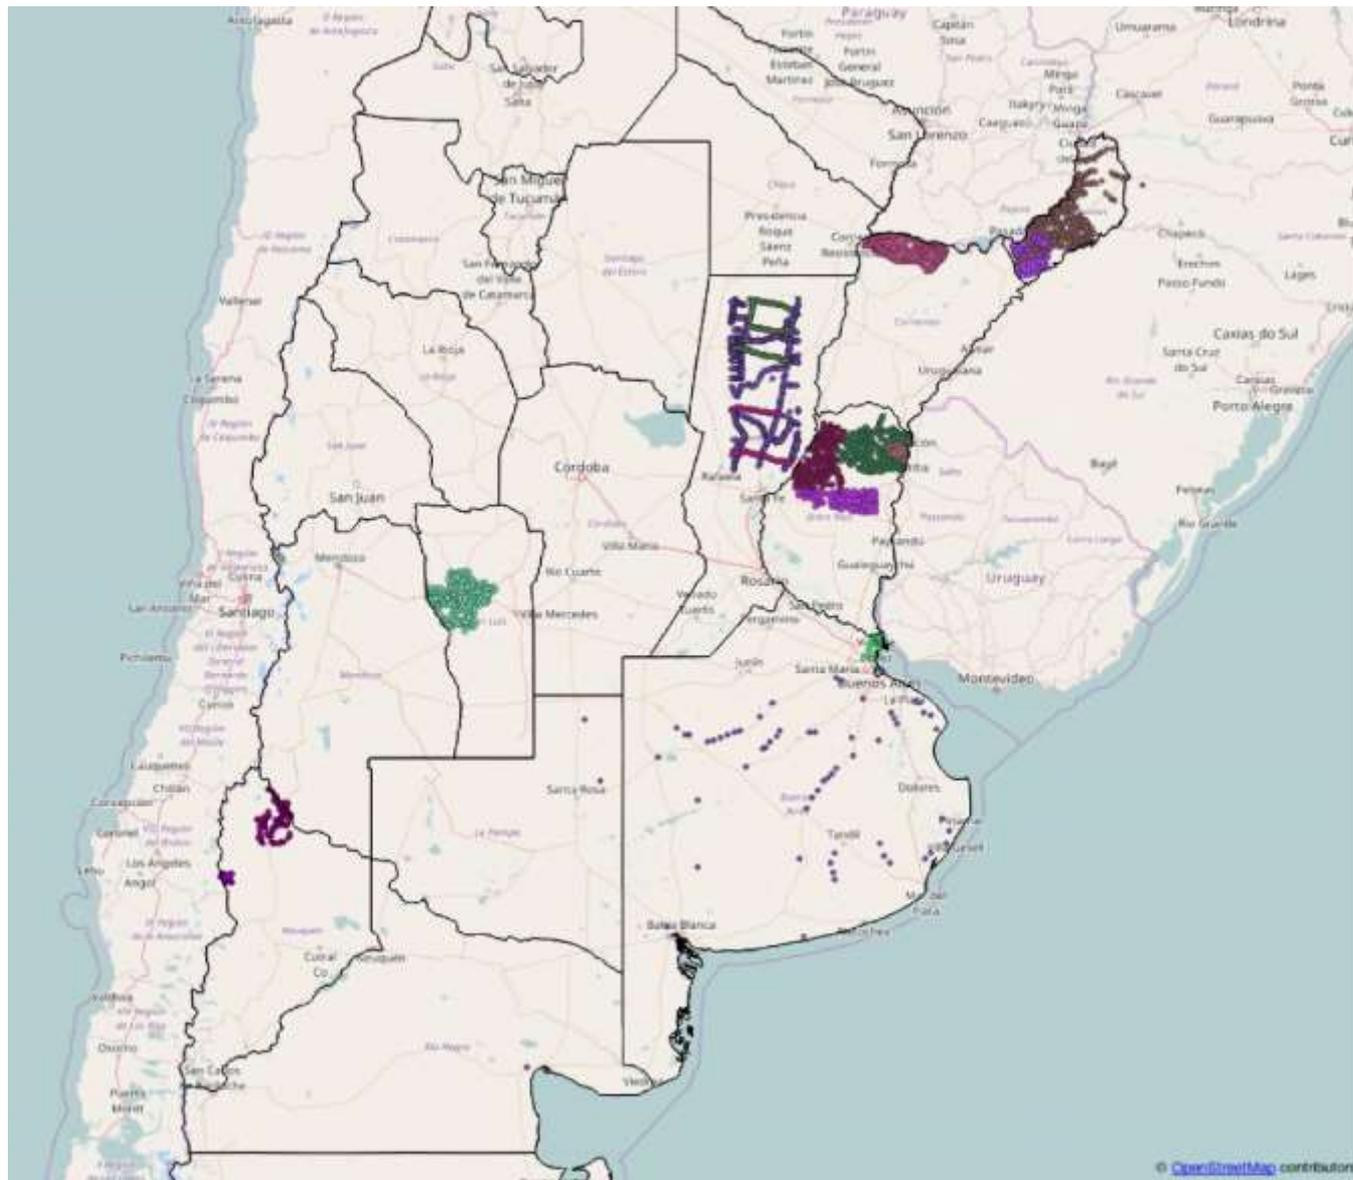

Densification efforts

Last few years of surveys

Densification Gravity Surveys in Ecuador

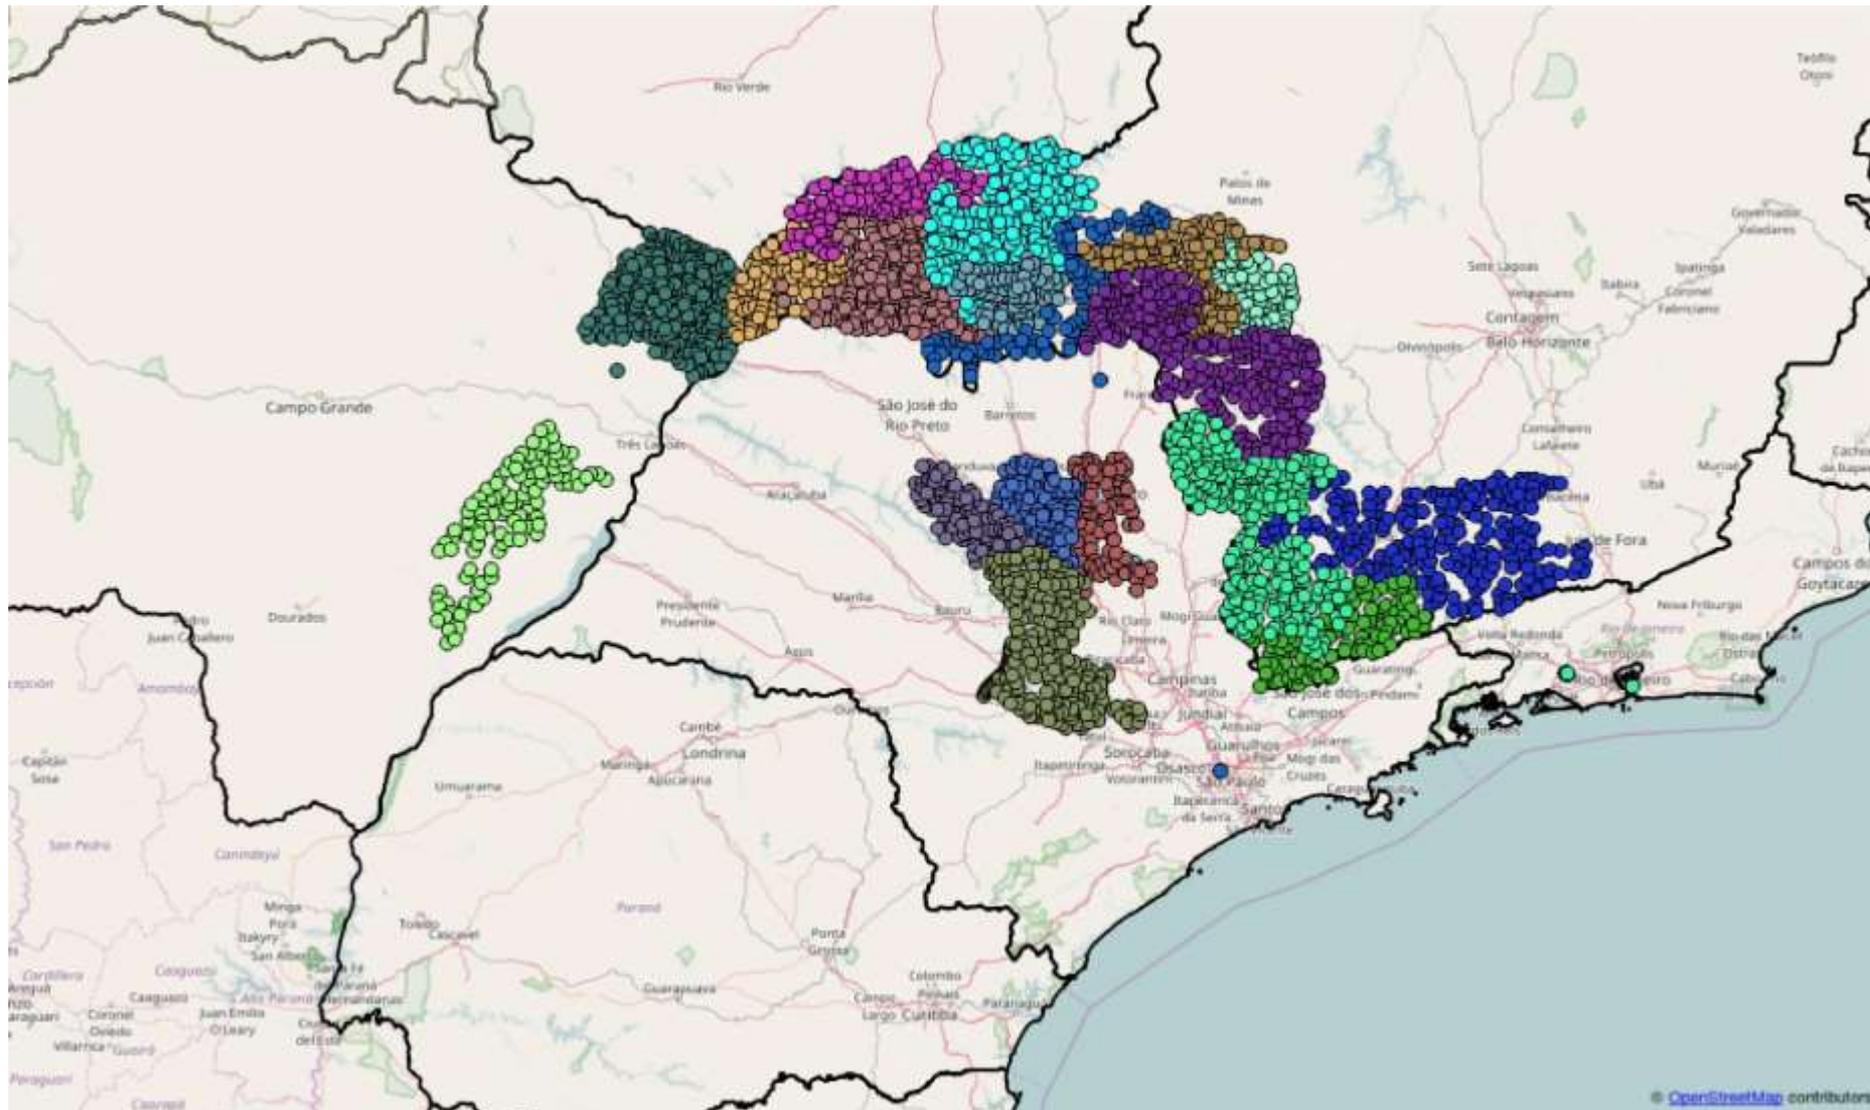

Densification Gravity Surveys in Argentina

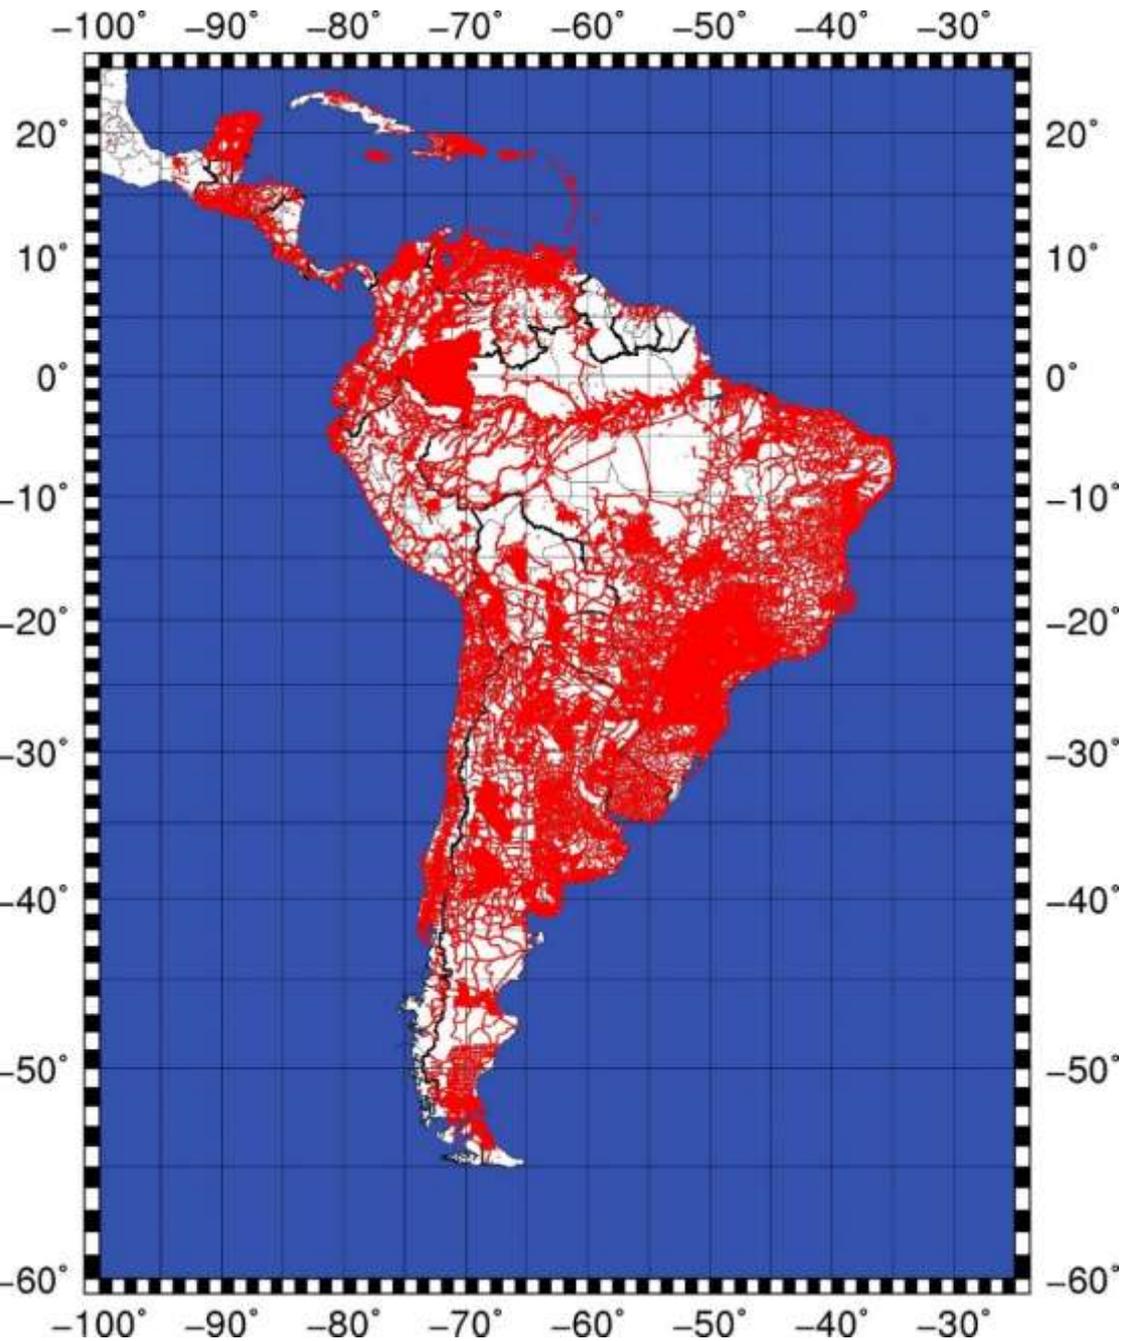

Densification Gravity Surveys in Venezuela

Densification Gravity Surveys in Brazil

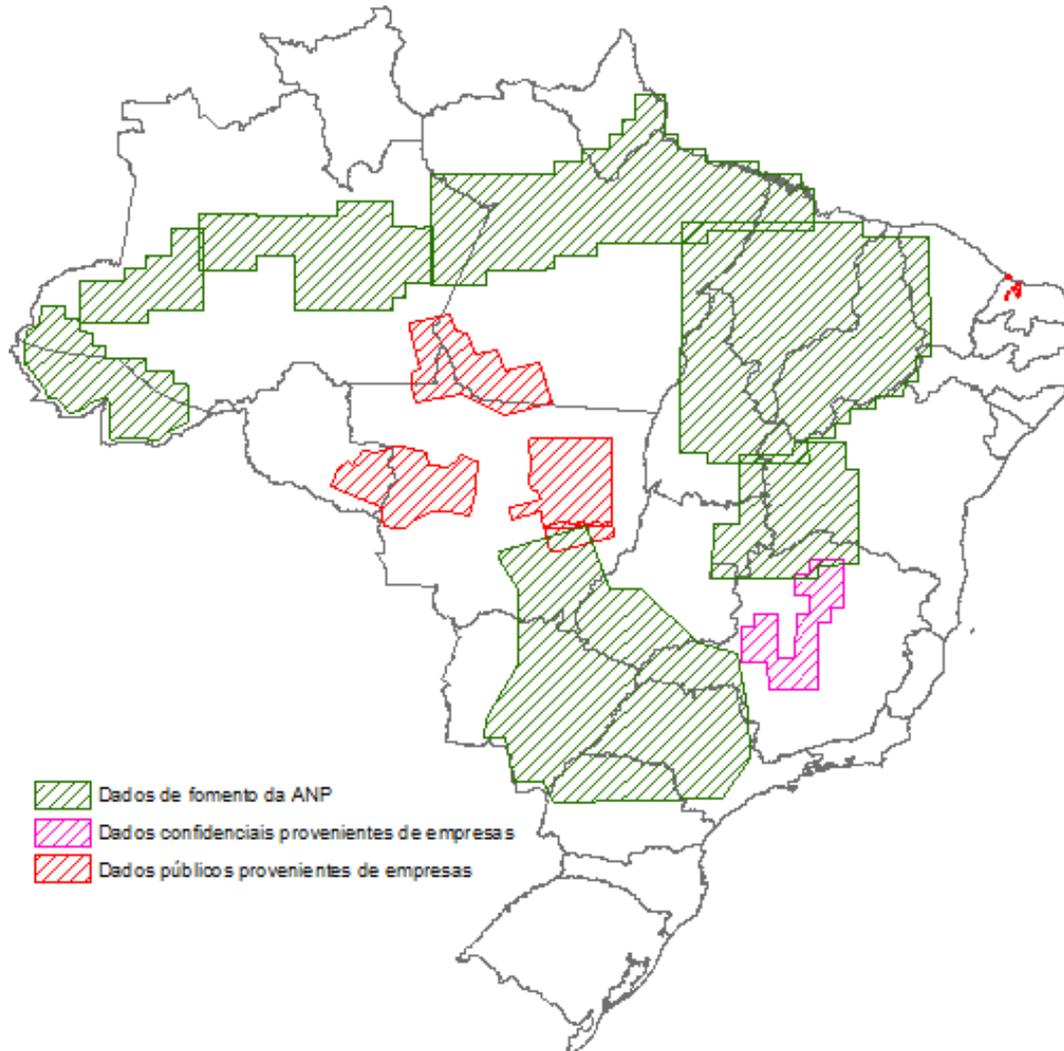

**Densification Gravity
Network in
South/Central
America**

Total of 951.928 points

AIRBORNE GRAVIMETRY

There are areas with airborne surveys available at ANP. These data are under processing at the moment in order to contribute to the geoid model.

Acknowledgements

- ❖ Foundation of the State of São Paulo (FAPESP) for supporting the Thematic Project.
- ❖ GETECH, NGA and the Civil and Military organizations in South and Central America (Argentina, Brazil, Chile, Colombia, Costa Rica, Ecuador, Paraguay and Venezuela) for the spectacular efforts for cooperation.
